

TUTORING...WITH A TWIST

PROJECT SELECTION

Amber Scotchburn Training Consultants specializes in delivering tailored training programs to match your requirements, either by adapting an existing project or developing a new one. Let us align your learning goals & objectives with your tutoring needs!

English Based Programming

A Book About Me From A TO Z

Research shows that if you have a subject you are interested in & knowledgeable about, you will excel. What would make a better subject for you than YOU? Write a book about yourself while improving your writing skills, learning new writing styles, increasing your vocabulary and perfecting your spelling & grammar, all in an engaging and creative process! What will your book cover look like?

Opening Doors

Gather insightful information on yourself and the skills you need that will open the doors to your future! Topics include communication, problem solving, decision-making, adaptability, self-esteem, goal setting, leadership and team work. Understanding and applying these skills will help you make the connection to success, all while increasing your English skills as you will present it in a portfolio! Which doors will you choose to shut and which will you walk through?

Working 9 to 5 & Loving It

This workshop will assist participants in identifying their motivated skill set and those areas that are interesting to them. This information can then be used to target careers that are a "good fit". Participants will explore the realities and opportunities of modern workplaces, while refining their employability skills and learning how to manage their careers. Participants will design an action plan for success which will target appropriate steps to connecting them to their "good fit" jobs. Pass the want ads please!

Not Remotely Controlled (Book Club)

Have a love for reading? Reading to fulfill school requirements? Being forced to put down your remote control for a book? Why not partake in a fun environment that will increase your zest for reading, sharpen your comprehension skills, fine tune your writing skills, & boost your communication skills! Literature pushes us out of our comfort zones and into the world created by the author, no matter our age. What book will jump-start your imagination today?

English & Math Based Programming

Dream Vacation

For those that love to dream and want to improve your math skills, this is the program for you! This project teaches a student to plan a two-week dream vacation with an itinerary and remain within a budget. It combines a study of mathematics, economics, geography, english and social studies. Where will you go?

Design Your Own Space

You are to create your very own house. You will be given construction specifics, as well as project questions to adhere to. Evaluation for this project will be based on an written and oral presentation on how your structure was designed and constructed. Your place or mine?

Don't Boss Me Around

Learn about what it takes to run a small company in the areas of organization, management, production and marketing. This project has you experiment with real world business challenges, while excelling in mathematics, learning the logistics of teamwork, & fine tuning your communication skills. Do you have what it takes to be your own boss?

Living On Your Own

Ever what it would be like to live on your own?! This project will use skills in researching to investigate living accommodations and housing and how to make informed choices with respect to clothing purchases, finance, food and nutrition, housing, and transportation. Will you be buying your clothes at the SOS or at Disco Lemonade?
